

The 2009 Bellemont Bahá'i Summer School has been cancelled due to construction of a new ramada and kitchen. The work expected to start in August has been delayed. The plans for the building are still awaiting approval of the Coconino County Planning and Zoning Department. A dedication ceremony and modified summer school is no longer possible in September. The school committee will meet October 17, and any new information will be posted.

Please continue to check this link. Your prayers for assistance to have the plans approved are needed.
